

## NEW DISTRIBUTOR FOR CUSTOMERS IN CHINA, JAPAN, KOREA UND SINGAPORE - DIGITALWERK GMBH AND HONGKE TECH. CO., LTD. ANNOUNCE SALES PARTNERSHIP

**Digitalwerk GmbH announces the signing of a new sales partnership agreement with HongKe Tech. Co., Ltd. for the technical distribution of digitalwerk's Software framework called ADTF (Automated Data & Time-Triggered Framework) and its customized solutions in China, Japan, Korea and Singapore. digitalwerk is a German software development company based in Regensburg focusing on ADAS tools & frameworks.**

By this agreement digitalwerk expands its support of OEMs and their supply chain when it comes to High Speed Data Processing, Rapid Prototyping, Embedded Software and Vehicle Verification in the automotive industry.

"As we all know, APAC and in particular China has a vibrant and rapidly evolving economy with an innovative approach to develop and design ADAS functions up to autonomous driving concepts!", said Johannes Bauer, Business Development Manager and ppa. at digitalwerk. "We are delighted to have Hongke Tech. Co., Ltd as a partner in the important task of bringing our in Germany highly referenced and approved Software framework ADTF and our tools to Chinese OEMs, Tier1s and all involved in the development and testing of future mobility concepts."

### EFFECTIVE AND EFFICIENT FRAMEWORK FOR DEVELOPERS

ADTF is the comprehensive software framework for the development and testing of ADAS functions up to autonomous systems. A simple and fast approach is available for every problem, so that own solutions can be developed effectively and efficiently. At the same time digitalwerk provides a huge amount of specific ready-to-use tools and apps for many use cases.

"With ADTF, digitalwerk brings together all standards, applications and open source in a proven form and thus allows all those involved in the development process to concentrate on the real challenges: Creating the functionalities and safety for the autonomous driving experience of tomorrow! digitalwerk's SaaS models, which include maintenance and upgrades, ensure transparency and security for the OEM and Tier1 without follow-up costs!" says Enrico Engel, CEO, Digitalwerk GmbH.

## About digitalwerk
